

The Ridley Scouting Top 100 List

This is our second annual Top 100 List covering Canadian high school football players from coast to coast. We went through thousands of players, talked to coaches from Vancouver Island to Nova Scotia and compared notes. If you feel that you've been overlooked please contact us with a highlight reel for consideration.

Two things have changed in the twelve months since the first list was released to the public. The major change is that we have dropped players from the CEGEP in favour of creating a separate list focused solely on the athletes playing in that system.

Secondly we have also created a list for athletes playing 6-man, 9-man or 10-man football in Canada. These are the true underdogs in Canadian high school football. They receive the least amount of media coverage. Not all aspects of the game translate from version to version, however the basic foundation of skills will.

Players are listed in alphabetical order in their position group that we felt they best fit. Some players that don't fit a single category were placed into the Athlete section.

Thanks for your interest in our program!
