

The Ridley Scouting Top 100 List

We embarked on this project while the football season was still young. Our initial idea was to draw more attention to the next crop of players that will soon wow us on the CIS and NCAA fields in the near future. In a few years we'll be discussing their merits ahead of the CFL Draft.

The first thing to remind those that read this list, is that determining the top players in the country is far from an exact science. Only a handful of these players will meet each other this fall and again out of those very few will actually go head to head in competition.

Ridley Scouting would like to thank all of the coaches, broadcasters, writers, agents and fans that offered up insight into the creation of this list!

Our process started with our National Recruiting List that has hundreds of the top identified players from the Pacific to Atlantic. From that list, we very quickly found our base and slowly built up to the one hundred mark. There was no magic number of players from a specific province or that played a specific position. Debate was intense surrounding the final few names and those that were left off.

Because of that debate we have pledged to turn our Top 100 List into a 3 part series. This first installment will test the waters and grow the idea. The second installment will show up once the provincial champions are crowned and a third installment will hit us in the spring once we reach combine season.

If you feel that you deserve a spot or would like to nominate a player for this list please send in your highlight reel or game film to Ridley Scouting. We evaluate thousands of players each year and work has already started on the Class of 2012 Top 100 List.

Please send any error corrections, name submissions or links to your highlight reels to rids@ridleyscouting.com
